

For those aged 18 to 59

An application for the issuance of a vaccination ticket is required for the 4th dose of COVID-19 vaccine.

① Make sure who is eligible (For those aged 18 to 59)

Those who have been vaccinated 5 months after the 3rd vaccination and have an underlying medical condition as defined by the government or those who are judged by a doctor to be at high risk of becoming seriously ill.

A medical certificate is not required to prove that the recipient has an underlying medical condition in order to be vaccinated.

The vaccine recipient is asked to fill out a preliminary medical questionnaire and, if necessary, will be checked the situation by interviewing.

If you are eligible and hope to receive the 4th vaccine, please apply for it using the method on the reverse side.

※: Scope of persons with underlying medical conditions as defined by the government

(1) Patients with the following illnesses or conditions who go to hospital or are hospitalized

- Chronic respiratory illness
- Chronic heart disease (including hypertension)
- Chronic kidney disease, Chronic liver disease (cirrhosis, etc.)
- Diabetes being treated with insulin or oral medicines, or diabetes with other accompanying illnesses, Blood diseases (excluding anemia due to iron deficiency)
- Diseases that reduce immunity functions (including malignant tumors under treatment), Receiving treatments such as steroids that reduce immunity functions
- Neurological diseases and neuromuscular diseases associated with immune disorders
- States in which physical function are impaired due to neurological or neuromuscular diseases (respiratory disorders, etc.)
- Chromosomal abnormalities (State in which severe physical disabilities and mental disabilities overlap)
- Sleep apnea syndrome
- Severe mental illness (Those who are hospitalized for the treatment of a mental illness)
- Those who have a Mental Patient Health Welfare Record Book, or who fall under the category of “severe and continuous” for psychiatric rehabilitation (psychiatric outpatient care), or have an intellectual disability (with a Rehabilitation Record Book)

(2) The obese who meet the criteria (BMI 30 or more)

BMI = weight (kg) / height (m) / height (m)
